KAOHSIUNG MUSIC CENTER

To Make Port of Kaohsiung a Musical Paradise for All

2022

TAKAO ROCK!

As the Kaohsiung Music Center approaches its first anniversary, Takao Rock is back with fans clamoring for a local music festival.

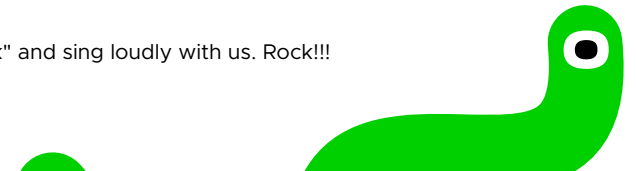

In recent years, music festivals have become a mainstream way for music fans to learn about local musicians in Taiwan. During the two- to three-day event, fans listen to their favorite bands and meet other musicians. Therefore, the Music Festival is an important promotion for young musicians, and also an occasion for senior musicians to test themselves and improve their live ability. Musicians also play together and release new songs at music festivals to attract fans. In the music festival, fans can see a unique picture while musicians quickly improve their skills, cultivate more outstanding talents to make the pop industry more stable, and the city more energetic and dynamic.

At the same time of "2022 Takao Rock", Kaohsiung Music Center is also celebrating its opening anniversary. The main venue will be the Kaohsiung Music Center as well as Performance Hall, Outdoor Plaza, Coral Zone and LIVE WAREHOUSE. Five theme stages will be created to continue the fun vision of 2018. With the theme of "Musical Paradise", more than 50 groups of musicians covering a variety of music genres will be invited as a music market and other activities will be held to enhance the hardware and field specifications, and to promote Yancheng District, which is full of historical attractions. We are ready to create a multifaceted music universe for all music fans to enjoy!

The charm of melody is not only the listening experience. Music festivals are not only about sweat, blood and the sun. The 2022 Takao Rock will be equipped with high-level equipment, perfect planning, exquisite stage and lovely souvenirs, so that people can see the vitality of the city brought by pop music in the vast harbor.

In November 2018, we sang loudly, danced hard and swung heartily around Kaohsiung Music Center. On October 29 and 30, 2022, the first anniversary of the Kaohsiung Music Center, "2022 Takao Rock" will be launched. We invite you to join us in the beautiful harbor and enjoy floating in the music universe!

Welcome to "2022 Takao Rock" and sing loudly with us. Rock!!!

Questions Not Included on Exams 3: The Modern Frankenstein's Monster in Comics 2022.9.9-2023.2.5

Dayi Warehouse C7: A.C.G.N. Warehouse

The "Questions Not Included on Exams" series uses contemporary cartoons to depict a perspective not mentioned in school textbooks, focusing on issues that won't be tested but are closely related to your life.

"Questions Not Included on Exams 3: The Modern Frankenstein's Monster in Comics" is a collection of mechanical bionics, genetic modification, and mimicry from Taiwanese comics. It is a museum of nonexistent monsters regarding artificial intelligence and other artificial human stories that explore the impact of technology and different types of artifacts.

Introduction to exhibition concept

A non-existent entrance

The semi-transparent entrance to the museum is a gateway into a virtual sci-fi world.

Fake museum design

The artificial monsters in the animation world are transformed into fossils in museums and portraits in art galleries, as if they really exist in the future world.

A manual of man-made monsters

In the exhibition, "Mechanical Bionic Monster", "Mimicry A.I. Monster", "Mutant Monster", "Who is a Monster?" sessions guide visitors to understand the artificial monster story in animation works. The limited-edition postcard is also designed as a museum's collection guide. Be sure to get it! For details, please refer to the description on the official website of Pier-2.

Shape of Hope Taiwanese × Japanese Designers' Joint Exhibition 5.6-11.27

Dayong Warehouse C5

"HOPE - The Shape of Hope" is set in the ritual of hope. When we make a wish, most of us have a "sense of ritual".

Just like a birthday wish, only once a year, there are three wishes, the first two to be spoken out, the last kept in the heart since hope is precious and rare, we also hope that wishes can come true. Symbolic objects are used to form the ritual of making a wish, as if it were a sincere effort to achieve a wish. The exhibition uses Taiwan, Japan and the West ways of wishing as the carrier, inviting Taiwanese and Japanese creators to express hope in original ways, so that people can appreciate the shape of hope through beautiful design. With the spread of mutant viruses and wars in 2022, we need hope at all times. "Hope" guides the direction of life and gives us strength to move forward. Let's make a wish!
