ONCE WITHIN BORDERS

The Neiwei Arts Center will start a trial run.

Everyone is welcome to this art and
lifestyle party toward Neiwei and the city.

Make a Reservation to Unbox the Neiwei Arts Center

Upholding the core spirit of "Art in Life, Life in Art", Neiwei Arts Center is jointly constructed by Kaohsiung Museum of Fine Arts (KMFA), Kaohsiung Film Archive and Kaohsiung Museum of History. Yet to be officially opened, it has drawn crowds to take photos on Makadao Road. On the west side of the KMFA, the white belt-like, light-weight building, which covers an area of about 1 hectare and has an interior of about 2,645m², was designed by architect Liu Peisen to symbolize the topography of Shoushan. There are no columns and beams inside, which makes people walk around very easily. More importantly, it is only a minute's walk from Neiwei Arts Center Station on the Circular Line, which is bound to become the most popular new cultural landmark in Kaohsiung.

The name of Nei Wei refers to the bamboo hedge around the settlement, which has a rich cultural history. However, the Makadao Road is separated by the Western Trunk Line for a hundred years, and Nei Wei is separated into the old and new neighborhoods accordingly. Now, with the construction of the underground railway, Green Park Road, light rail MRT ring system, and the carefully planned Neiwei Arts Center, we are closing the city with culture, and will drive the regeneration opportunity of old neighborhoods.

Neiwei Arts Center's first exhibition, titled "Once Within Borders", is open to the public. You are welcome to make an appointment to see art exhibitions, movies, restorations, design and have some coffee. In order to thank them for the ten years of patience and waiting, we reserved half of the reservation places for Neiwei residents. We hope that visiting the art center will be as natural for the Neiwei residents as shopping at Neiwei market.

After breaking the border is endless imagination and possibility. You are welcome to join us to achieve an art experience without boundaries and barriers.

Please pay close attention to "What's New" on Neiwei Arts Center official website or facebook page of Neiwei Arts Center (www.nwac.org.tw) for information on Neiwei Arts Center's trial run and reservation for the first exhibition.

Shape of Hope Taiwan x Japanese Designers' Joint Exhibition 5.6-11.27

Dayong Warehouse C5

"The Shape of Hope" uses three methods of wishing from Japan, Taiwan and the West as carriers to appreciate the shape of hope through beautiful design.

Introduction

"Ride on Hope"

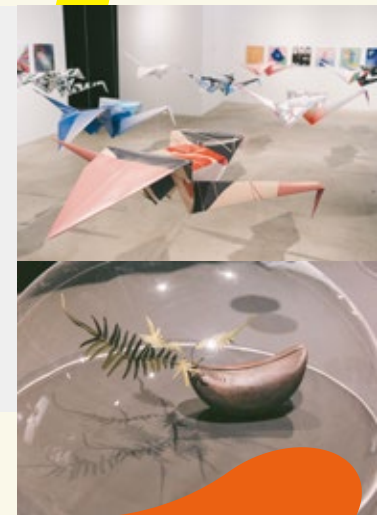

Twenty Taiwanese and Japanese designers made images of Japanese-style 'one thousand origami cranes' to symbolize a future with hope.

"Shaping Hope"

The artists used "divining blocks", an object from the traditional Taiwanese religion and composite materials to shape the firm hope.

"Talk about Hope"

Graffiti art on the walls speaks to the turmoil and fear of the world, rallying faith and breaking down barriers by tying symbolic ribbons.

In 2022, when mutant viruses spread and wars broke out, "hope" guided us and gave us strength to move forward. Let's make a wish!

Questions Not Included on Exams 3: The Modern Frankenstein's Monster in Comics

2022.9.9-2023.2.5

Dayi Warehouse C7: A.C.G.N. Warehouse

"Questions Not Included on Exams 3: The Modern Frankenstein's Monster in Comics" takes "Man-Made monsters" as its theme. It focuses on design and shaping of character, explores the issues behind monsters, and reflects on the influence and impact of technology.

The "Mechanical Monster" section recreates a robotic undersea city based on Kaohsiung from a VR animation film, The Reflected City. There is a projection of a huge mechanical deity, as if the exhibition is in a sea city. There are also VR experience events at C7 warehouse, Pier-2. You are invited to immerse yourself in a magical steampunk city.

Being X

Hsin-Chien Huang's Metaverse Theater

Entering "Being X - Hsin-Chien Huang's Metaverse Theater", you are no longer just a passive viewer, but a part of the story. Your perspective becomes the "X person perspective" of each work.

New media artist Hsin-Chien Huang strives to break the boundaries of traditional linear narrative frames and visual senses through art and technology. His creations use Virtual Reality (VR) and immersive, interactive performances to transform the traditional form of "story-telling" and create a "story-living" experience. The concept of "Being X" is taken from the unique physical immersion of VR works. The viewer not only enters a virtual world, but is also able to switch perspectives, allowing the body to disappear and reconstruct itself, with the senses and the physical body shifting with the space and the perspectives changing along with it.

2022.10.08 - 2023.03.05 KMFA gallery 101-103

Full Access Ticket NT\$250
(including one VR experience, reservation required)

Exhibition Ticket NT\$150
(no VR experience)

A scale model of Tainan Station

Do you know the history of railways in Taiwan is over 100 years? As a memory space, different generations of people have a special emotion towards the railway, a witness to the development of Taiwan's transportation system and the collective memory of Taiwan people. The picture shows the scale model of Tainan Station at Hamasen Museum of Taiwan Railway. The second-generation Tainan Station was completed in March 1936 and has been in use since then. The second-floor reinforced concrete building was the product of the modern eclectic style, and the second floor was equipped with an advanced Western-style hotel, which was the only station with a hotel in Taiwan at that time. After the closure of the hotel in 1966 and the closure of the railway restaurant in 1987, the restoration and reuse project of the national monument Tainan Station started in December 2017. It is expected to present the original style of the railway hotel with seven rooms.

Hamasen Pier 2 Line is located at Penglai Warehouse in The Pier-2 Art Center. It was the first fixed five-inch gauge railway in Taiwan. Each carriage of the train can hold 300 kg and is suitable for adults and children. It takes about six minutes to circle the art center on the "Circular Light Rail." The special experience is very popular among tourists.

Double Classics: Jacques Demy's World of Song and Dance

The Double Classics section will play *Les Parapluies de Cherbourg* and *Les Demoiselles de Rochefort* by Jacques Demy, one of French New Wave's best directors, to recall the New Wave with these two musical films. It is fair to describe Jacques Demy's musical films as "gorgeous". His fascination for bright colors, intuition of mise-en-scène, arrangement of camera movement, and Baroque musical style formed his unique musical and musical films. Jacques Demy's homage to Hollywood musical films has also influenced contemporary directors. Damien Chazelle's blockbuster *La La Land* has Jacques Demy in its music, mise-en-scène, color and even its unhappy ending.
