2024

② FEB. → ⑦ JUL.

Spring is here and welcome back to KSAF!

The Kaohsiung Spring Arts Festival (KSAF) is an annual event that takes place from late February to early July. It brings together talented performing artists and technical teams from around the world to create a unique and unforgettable experience in Kaohsiung. The festival has been running for 15 years and has produced many memorable performances that have evoked a range of emotions.

During the spring season, KMFA Lakeside Lawn will host concerts, including a 'February 28 Grassland Concert' to commemorate and pray for love and peace, as well as two concerts featuring classic and timeless films, 'Superman' and 'Back to the Future'. The concert takes place from dusk until the starry night, and families are welcome to join and have a picnic. The iconic soundtrack by John Williams will accompany the unrestrained fantasy sound, and you can take off into the grassy night sky with Superman!

KSO and KCO's music programs feature renowned musicians such as Italian violinist Giuseppe Gibboni, winner of the Paganini Competition, Ukrainian pianist Alexander Gavrylyuk, three-time winner of the World Piano Competition, and American violinist Lu Si-qing, who is performing with KCO for the second time. Don't miss their flagship opera 'Tosca' or the highly anticipated Japanese Noh drama 'Mazu', which was finally performed in Kaohsiung in May after two years of preparation. The orchestra is hosting two family concerts featuring joyful music for children. Additionally, there are new Spring Art series performances including 'Little Theater', 'Taiwanese Opera', and 'Environmental Dance'. These performances are popular among young audiences and 'Environmental Dance' pushes the boundaries of the field. The audience can enjoy dancing in close proximity to the dynamic dance at Shoyoen, the Former Tangrong Brick Kiln, and the Former British Consulate at Takao.

Our program offers a diverse range of entertainment, including music, film, dance, small theater, opera, family events, and Noh opera. The events run from the end of February through the beginning of July, spanning the transition from winter to summer. Join us for a wonderful experience! Welcome to the 15th year of KSAF!

Dayi Warehouse C7: A.C.G.N. Warehouse

"Unseen Mangakas | Whose Face Behind Female Characters" presents stories of women from eight anime works. These "anime women" have different faces and lives in the author's works.

"MixFlavor" is the pen name of the duo artists Siaomei and Dasyuan. Their exhibition, 'Saturday Love Words,' is based on the daily dialogue between different lovers and is designed as a story. The exhibition displays a dialogue between cartoon characters Jie-en and Jie-fu using bottles. Jie-en's unique tone is achieved through a clever and romantic mix of dialogue.

Art Crafted by Hand in the Age of Generative AI 2023.12.23-2024.4.28

Dayong Warehouse C5

The rise of AI-generated art has introduced a new dimension to contemporary art. While AI-generated art can offer unique visual and auditory experiences, it cannot replicate the tactile sensations and materiality of handmade art.

The exhibition 'Art Crafted by Hand in the Age of Generative AI' features the work of nine artists. Their work often requires a significant amount of time and repetitive movements, while also incorporating timely and physical aesthetic characteristics. Enjoy the handmade art created by these talented individuals.

Through the exhibition, they convey different aspects of the sea to the audience.

Penglai Warehouses B6

The National Human Rights Commission's 'Color Our Rights' poster exhibition presents human rights issues in the form of an art exhibition. It encourages individuals to care for others through their actions, embrace diversity and inclusiveness with love, and start with themselves on the occasion of the 75th anniversary of the Universal Declaration of Human Rights. We hope that more people will come together to focus on human rights issues. By using the power of art, we can spread the message of love and raise public awareness of human rights issues. Together, we can create a more friendly, respectful, and equal society.

The History of Kaohsiung

Location: Exhibition Room 101-104

As a historical landmark, the Kaohsiung Museum of History becomes an important entrance for the public to learn about Kaohsiung. Following the "Impression of Kaohsiung" technological narrative in 2020, the key to Kaohsiung's urban development will be focused in early 2022 through three themes: walking along the "river" to see the origin of Kaohsiung civilization; taking the "railway" to understand the industrial development and modernization of Kaohsiung; viewing the "harbor" construction to know how Kaohsiung connects with the world. The exhibition hall will be transformed into a landscape space, tracing Kaohsiung's history from a traditional settlement to an international port city.

Kuan Yuan Store Liouguei Branch and Hong Family Documents Exhibition

Location: Exhibition Room 201

Duration: September 20, 2023, to March 3, 2024

In 1912, Hong Kuan-yuan came to Liouguei, Kaohsiung. He managed a store and had a permit for conducting exclusive businesses, such as trade with indigenous people (referred to as Indigenous-Han transactions). He became a well-known local merchant. The Kuan Yuan Store shut down with the town after World War II but unexpectedly reconnected with the museum in 2017 through Kaohsiung City Government's "Liouguei Renaissance Project."

This exhibit showcases Hong Kuan-yuan's busiest time during the Japanese colonial era. It explores three key topics - "Shop," "Indigenous-Han Transactions," and "Families" - and tells the tales of Liouguei. Liouguei lies at the crossroads of local Han and indigenous life, with Hong Kuan-yuan serving as the multifaceted figure who helps bring it all together.

Hundred Years' History of Kaohsiung Station

Venue: Hamasen Museum of Taiwan Railway

The Imperial Crown Style is a unique Japanese architectural style that integrates Oriental and Western styles. It emerged in the 1930s, resembling a crown and a suit on the head. During the rise of Japanese militarism, Japan aimed to build a 'Greater East Asia Co-Prosperity Sphere', resulting in numerous buildings in Japan, its colonies, and occupied areas that showcased Japanese culture and modernization. Kaohsiung has two iconic Imperial Crown buildings: the third generation Kaohsiung New Station and Kaohsiung City Hall (now the Kaohsiung Museum of History).

This exhibition features a physical tile and is open for visitors to enjoy up close.

Hamasen Pier 2 Line is located at Penglai Warehouse in The Pier-2 Art Center. It was the only five-inch gauge railroad in normal operation in Taiwan. The small train is interesting and cute, which is popular with many adults and children at home and abroad. It takes about 6-8 minutes to go around the Penglai Warehouse on the "Circular Light Rail". Welcome everyone to purchase tickets and board the ride.

Memories of Murder and Green Fish:

A look into the past and future of Korean society By Siang Gong Tang Jhu

BONG Joon-ho's "Memories of Murder" depicts the contrast between two detectives investigating a serial murder. The film highlights their differences in approach and personality. "The Green Fish" is about the struggle between gangs and vengeance, the difficulty of walking between black and white, and the helplessness of having to make compromises in life.

Mak-dong (Han Suk-kyu), who has just finished his military service, meets Mi-ae (Shim Hye-jin) on the train ride home. Mak-dong and Mi-ae are reunited by accident when Mak-dong is searching for a job. Mi-ae, a nightclub singer and the mistress of gangland boss Bae Tae-gon (Moon Sung-keun), introduces Mak-dong to a job through Tae-gon. As Mi-ae wants to escape Tae-gon's control, she gradually develops feelings for Mak-dong.

In October 1986, a series of similar killings took place in Gyeonggi Province. All of the victims were women who had been bound and killed, which drew national attention. The police created a specialized search team, led by officers Park Doo-man (Song Kang-ho) and Seo Tae-yoon (Kim Sang-kyung). Park Doo-man relied on his intuition to investigate, while Seo Tae-yoon meticulously collected data and searched for clues. As all the victims were wearing red, the police decided to use a policewoman dressed in red as bait to lure the suspect.

Seeing the Big Things in the Little Things

The exhibition "Chihuahuas Inserted in Famous Art" will open in 2024

This exhibition connects five types of famous paintings with short stories of daily life. It introduces the painting styles or famous events of famous paintings, from grand masterpieces to political paintings reflecting reality, the care of barren land under war, and the presentation of modern styles. The history of Western painting is complex and profound. It cannot be simplified for beginners, but it can be presented in a lovely way.

The Neiwei Arts Center aims to capture the artist's original intention for this series: to create simple and joyful paintings that can be interpreted freely, allowing happiness to spread. We decided to showcase this exhibition in the New Year. Our goal is to create a warm and joyful atmosphere through the use of humorous parodies of 14 classic paintings. This will serve as a stepping stone towards achieving that goal. Visitors to the New Year's exhibition are expected to have a fun and healing experience, easily entering the world of art.

“ Chihuahuas are timid and shy, yet cute and intelligent. Artist Nelson Syndrome, who owned Chihuahuas, found them to be perfect for memes. He used them as the subject of his series 'Chihuahuas Inserted in Famous Art', which provides a flattering and intimate introduction to paintings that everyone has seen more than a hundred times in their lifetime.
